Subject: Microsoft Settlement

Dear United States Department of Justice,

I am writing you today to express my feelings in regards to the settlement reached between Microsoft and the Department of Justice on November 2nd. I am anxious to see this dispute resolved, so I oppose further action against Microsoft. This settlement is fair, contains provisions that foster competition, and is good for the technology industry. Microsoft has pledged to share more information with other companies and give consumers more choices. Under this agreement, Microsoft must design future versions of Windows to make it easier to install non- Microsoft software and must disclose information about certain internal interfaces in Windows.

The last thing the American economy needs is more litigation that benefits only a few wealthy competitors and stifles innovation.

Thank you for your time,

Lynn B Boman Jr.
